**Newsletter for July 2022**

**From the Commander – Dave Marsh**

We are up against headwinds of inflation and our members are feeling the effect of the rising prices. We must be cognizant to that and work on projects that will help our members utilize the Post and to grow our membership.

We need to restore our Lounge crowds during the daytime hours which will give members a chance to enjoy the company of other Legionnaires.

We are disappointed with the number of people utilizing our Kitchen menu. You all know that the kitchen is presently leased to a company and they do catering as well as serving meals in the lounge .The Kitchen is open Mon-Thurs and Sat. I am looking forward to offering a venue on Friday in the fall and this will be a full week.

I am excited to be working with our new Board Officers ,all of these people work for the membership so please do not be afraid to approach them or me with suggestions. This is your Post.

I have already met with the Commander of the SAL and we will be working together on several projects to be named soon. I hope to meet with the Auxiliary as soon as practical. We had an exceptional year last year with many volunteers joining in on several projects. We always need volunteers.

**From Melian De Crolis Legionnaire Resaurant (located inside Post 7)**

Prepare your taste buds with high quality American food and delicious desserts. Hours of operation vary on entertainment and we are open to the public.
