GET MORE efficiency, control and insight

Have you tried Cash Flow Insight available in Online Banking today?

What is it?

Cash Flow Insight is a suite of tools to help you manage receivables and payables processes more efficiently, and visualize, understand and project your cash flow -- so you can make more informed decisions and stay ahead and in control.

What does it mean for me?

- > Reduce those stacks of invoices and bills on your desk
- > Automate your invoicing and speed up receivables
- > Organize your payment processes and stay on top of what is due when
- > Store digital copies of bills and other documents online, all in one place
- > Connect your accounting system with your business banking and save time by syncing vendor, customer, bill and invoice information between your accounting software and Cash Flow Insight, so you do not have to enter data in multiple places

And the best part is, all of your receivables and payables activity in Cash Flow Insight automatically updates an overall view of your business' cash flow -- past, present and projected. So you can see where you've been, where you are today, and forecast and plan for your future.

NEW: Delegation is now available in Cash Flow Insight, enabling you to grant varying levels of access to those who help operate or advise your business. Involve others in forecasting, planning and reporting; organize and streamline your receivables and payables processes; and establish approval policies for payments leaving your account -- giving you greater transparency, efficiency, control and peace of mind.
